PROFESSIONAL SUMMARY

Results-driven Front-End Engineer with **3+ years of experience** delivering high-performance, interactive web applications using **React.js and Next.js**. Proven track record of building scalable frontend architectures across FinTech, SaaS, and E-commerce platforms serving thousands of users. Expert in state management (Redux, Context API, React Query), performance optimization, reusable component design, and seamless API integration. Successfully shipped **10+ production platforms** including real-time trading dashboards, multi-vendor e-commerce stores, and a government meeting-management system. Comfortable working remotely in cross-functional agile teams.

KEY HIGHLIGHTS

- Shipped **10+ production platforms** across e-commerce, FinTech, SaaS & government sectors
- Reduced component development time by **~30%** through a reusable UI library at Micro Engineering Tech
- Built real-time trading dashboards processing **live market data** for BBS FinTech platform
- Integrated **AI-driven automation** into Ijtimaaty — government platform used by **4 Omani ministries**
- Engineered responsive e-commerce UIs serving a **large-scale user base across Saudi Arabia** (Remote)
- Consistently delivered **fast-load, mobile-first** interfaces with Core Web Vitals as a core KPI

WORK EXPERIENCE

Senior Front-End Engineer · React.js, Next.js

V4Technology — Saudi Arabia (Remote) *Apr 2025 – Present*

- Lead front-end development across multiple Saudi e-commerce platforms (product browsing, checkout & account management)
- Architect scalable component libraries with **Next.js + TypeScript**, cutting feature-delivery cycles
- Optimize Core Web Vitals (LCP, CLS, FID) ensuring fast experiences for a high-traffic Saudi user base
- Collaborate with backend teams on REST API integration, error handling, and loading-state UX

Front-End Engineer · React.js, Next.js

Go Partners *Aug 2024 – Apr 2025*

- Built a **FinTech trading platform** with real-time dashboards, live financial API integration & charting
- Implemented secure JWT authentication, portfolio management features & role-based access control
- Engineered high-performance responsive interfaces handling real-time data streams with minimal latency
- Created reusable UI components that improved team scalability and eliminated redundant code

Front-End Developer · React.js

Micro Engineering Tech Inc. *Jan 2023 – Mar 2024*

- Built a **library of 15+ reusable UI components**, improving development efficiency by ~30%
- Collaborated with backend engineers on API integration, optimizing data-fetching & state management
- Delivered pixel-perfect responsive interfaces from Figma designs using React.js, SASS & Bootstrap
- Participated in code reviews and raised overall code-quality standards within the team

PROJECTS

El Manea — E-commerce Platform — Next.js · TypeScript · Tailwind CSS

- Engineered a modular Next.js storefront with SSR & dynamic routing, driving fast Lighthouse scores across all pages

Paris Gallery — Luxury E-commerce — Next.js · TypeScript · Tailwind CSS

- Built pixel-perfect, animation-rich product & category pages in Next.js for perfumes, watches & jewelry
- Optimized image delivery & TypeScript type safety to deliver a premium, seamless experience on all devices

Qasr Al Awani — E-commerce — Next.js · TypeScript

- Built reusable, type-safe UI components with TypeScript, accelerating delivery across listing & checkout flows

BackComfort — E-commerce — Next.js · TypeScript · Tailwind CSS

- Optimized code-splitting & image loading in Next.js, cutting page load times across catalog & checkout

Alkhunaizan — E-commerce — Next.js · TypeScript

- Designed accessible, mobile-first UI patterns with TypeScript, streamlining browsing & boosting conversion

Tabs Link — SaaS E-commerce Platform — Next.js · TypeScript · Tailwind CSS · React Query

- SaaS platform enabling freelancers & professionals to create personalized online stores via subscription
- Built tab-based navigation, dynamic routing, product showcasing & order management dashboards
- Focused on scalable component architecture, responsive design & performance optimization

BBS — Best Broker Solution (FinTech Trading Platform) — React.js · Redux Toolkit · REST APIs · Chart.js

- Developed real-time trading dashboards with live market data & financial charting components
- Implemented secure authentication, portfolio features & high-performance reusable UI components

Ijtimaaty — Government Meeting Management System — React.js · JavaScript · REST APIs · AI Integration

- Delivered features for a platform used by Central Bank of Oman, Ministry of Justice, Education & Water Resources
- Integrated AI-driven automation for meeting task assignments & participant communication

TECHNICAL SKILLS

Frontend Frameworks	React.js, Next.js, TypeScript, JavaScript (ES6+), jQuery
State Management	Redux, Redux Toolkit, Context API, React Query, SWR
Styling & UI Libraries	HTML5, CSS3, Tailwind CSS, SASS, Bootstrap, Ant Design, ShadCN
Testing & Dev Tools	Jest, React Testing Library, Figma, JIRA, Git / GitHub / Bitbucket
Backend Knowledge	Node.js, Express.js, MongoDB (REST API integration)
Core CS Concepts	Data Structures & Algorithms, OOP, Design Patterns, Agile / Scrum
Soft Skills	Problem Solving · Critical Thinking · Leadership · Adaptability · Team Player

EDUCATION & LANGUAGES

Faculty of Law — Al-Azhar University · Military Service: Exempted	Arabic — Native · English — Advanced
